Carpenter

Company Information

Hatcher Construction is a growing, Alaska family owned, and operated business dedicated to providing quality construction services throughout Alaska. We specialize in all areas of refurbishment and new build projects, predominately within the mining and logistics industries.

Description

Responsible for installing wooden structures such as roofing frames, rafters, partitions, joists, and stud work. Installing cabinets, shelving, fitted furniture, drywall, and insulation. Ability to install fixtures and fittings, such as door handles, locks, hinges, and closures. Knowledge of lumber sizing and strength to suit jobs. Coordinate tasks according to priorities and plans and allocate activities as appropriate. Supervise and train workers and tradespeople.

Opportunity

We are willing to train an applicant that demonstrates the desire to learn construction skills. Good work ethic and attendance are required. You will be training with a talented, skilled craftsman and he will provide you training that you will use over your lifetime personally and professionally. Hatcher Construction provides growth opportunities within the company. This position is seasonal.
